

# Newsletter in All Its States #4

## Intro

From Fosdinovo to Brussels, this summer and the beginning of autumn have been rich in encounters and creations: at the 50th anniversary of the **Centre de Partage** in Avioth, a new hymn was born; ArTerre inspired us in the heart of the village and in the Fossetta, Caterina's forest-garden; the Écrin/ture workshop opened a space of words and silences in Brussels; our very first Extraordinary General Assembly gathered new active forces and adopted the unified charter.

Our website is now also available in English, and the Support page invites everyone to nourish this shared momentum. Finally, we are preparing for our 6th participatory gathering: **1001 Ancestors – registrations are open!**

## 🌿 A new breath is running through La Collective dans Tous ses États...

### 🌿 ARTERRE IN FOSDINOVO

In August, ArTerre brought us to the village of **Fosdinovo**, to meet its inhabitants and the Repop project carried by Benedetta, Caterina's sister. At the **Fossetta**, the forest-garden where she works in market gardening, we participated in a collective worksite.

From these immersions and the shared momentum, new works of creation and co-creation were born.

### 📖 ÉCRIN/TURE IN BRUSSELS

The **Écrin/ture** workshop has opened a space for sharing, meeting, and writing at the heart of the **Librairie Chimères**, dedicated to worlds of imagination. Conceived as a "writing case" — for when it is difficult to dedicate time alone —, it offers bi-monthly meetings in Brussels.

The workshop is not directed: each person advances on their personal project, supported by the presence and energy of the collective. The workshop is full, but a **waiting list** is available.

### 👉 EXTRAORDINARY GENERAL ASSEMBLY

In September, we held our very first **Extraordinary General Assembly** and welcomed **new active and invited members**. The **unified charter**, adopted unanimously, as well as the internal regulations are now available in [FR](#) and [UK](#).

**Membership conditions** have been made more flexible to remain accessible to all, and we opened perspectives for 2025–2026.

# 1001 ANCESTORS: Roots and Migration Paths – Registrations Open!

IN PARTNERSHIP WITH THE ACADEMY OF VISUAL ARTS OF MOLENBEEK.

Our **6th participatory gathering** invites us to explore our roots and the paths of migration within our lineages: to connect our personal and collective stories, those of our ancestors by blood or by heart, and those that are still being woven through us.

We will weave together **fragments of writing** ✍️, **interdisciplinary co-creations** 🎨, **practices of connection** 🧑, **a visit to the Museum of Migration** 🏛️, **a collective installation dedicated to ancestors** 🕯️, **moments of sharing** 🍵, and **an open lab** 🛠️ to close.

## ♥️ **Make a donation**

✨ **WE HAVE NEITHER SUBSIDIES, NOR GRANTS, NOR PATRONS: IT IS TOGETHER THAT WE KEEP THIS MOMENTUM ALIVE.**

♥️ Your donations make possible the organization of our events and gatherings. They support solidarity-based pricing, room rentals, coordination, collaborative tools, and communication, allowing us to share our creations during public restitutions.

And because support takes many forms, your lending of spaces or materials, as well as your helping hands, are also precious 🙋.

## Other Dreams for the Future...

FOR 2026 AND THE YEARS AHEAD, WE ARE ENERGIZING SEVERAL PROJECTS:

**Participatory gatherings** in  
multidisciplinary co-creations  
abroad, where we have  
contacts to support the  
organization: in **Morocco**,  
**Spain**, and **Lithuania**...

Following ArTerre, a week  
combining market gardening  
and co-creations in a Tuscan  
village in August 2025, these  
projects aim to connect people  
and places beyond state  
borders, working toward a **world**  
**where perspectives multiply**  
**and solidarity becomes a**  
**natural reflex.**

✂️ **One-off workshops** to  
share a skill and propose  
collective learning  
#workshops.

🇪🇺 **Conferences** to explore a  
theme in the multiplicity of its  
facets.  
#philosophy #reflection

👤 **Trainings** to deepen our  
skills and tools.  
#collectiveintelligence  
#sharedgovernance  
#groupfacilitation

The creation of a **place of life**, events,  
artistic residencies, gatherings, and  
hospitality: **La Maison dans Tous ses  
États**.

This place will take the form of a **co-  
housing project**, with spaces  
dedicated to the **artistic activities**  
and **events** of the **members** of La  
Collective dans Tous ses États.

It will be a space of **solidarity**, close  
to nature and attentive to the needs  
of each person.

**We are open to any opportunity to  
transform this dream into reality!**
